

Materials Required:

- Slices of Potato
- Slices of Apple

Potato Apple Challenge

Sometimes your senses can play tricks on you. Experiment with your sense of taste and your sense of smell with this simple experiment! What happens to your sense of taste when you plug your nose?

1. Taste the potato.
2. Now pinch your nose and taste the potato again.
3. Taste the apple.
4. Now pinch your nose and taste the apple again.

Is there a difference in taste when you pinch your nose?

If you close your eyes and pinch your nose, could you tell the difference between the apple and the potato?

Try the same experiment with other foods!
