# Texture Book

A texture book is a fun way to explore the world around you and use your senses of vision and touch.

There are many ways to fill your book with fun textures. Use some or all of the ideas below! How many different textures can you create?

1. Find an object that has an interesting surface and use your crayon to make a rubbing.
2. Mix any paint you have with things like sand, glitter, or spices to make gritty textures.
3. Glue in soft things like feathers, cotton, or smooth materials.
4. Find reflective materials like foil and glue them in.
5. Use a textured cardboard or crinkled up paper to make a bumpy page.
